

May 18, 2022

Dear Valued Customers,

The combination of inflation, soaring energy costs, and the material and inventory shortages being experienced in the transportation sector are continuing to drive up our operational costs at an inordinate rate. As we attempt to keep pace with these escalating costs, we wanted to inform you of a forthcoming price increase to our services.

Effective Wednesday, June 1, 2022, ATL Courier, Inc. will be increasing its rates approximately 4.5% for the courier and small parcel division, and 8.5% for the commercial trucking division. Specialty services such as White Glove / Gold Team, in-bond, inventory, warehousing, refrigerated, and trailer rental will continue to be quoted based on availability and market variances.

We greatly appreciate your business and look forward to serving you in the future. Should you have any questions, please contact your ATL Courier account representative or our customer service team at: atl-inbox@atlcourier.com

Regards,

Bryan Hill
General Manager
ATL Courier, Inc.
